Be the First to Be Informed

Communications

The cornerstone of any successful business lies in its communications system. Possessing an efficient and effective communication system sets the foundation for individual and organizational success.

Emails, faxes and SMS-es are already in use extensively, due in part to its convenience and efficiency. However, a convenient and effective way can still be found to enable companies to increase their productivity as well as enhancing the overall business competitiveness.

SendQuick Communications is designed to allow you to achieve a higher level of efficiency. Built to function as a plug-and-play device, there is no need for constant software upgrades or regardless of the number of users using the system. With the use of SendQuick Communications, a list of Microsoft Outlook 2007 services (emails, appointments, meetings and others) can therefore be sent as SMS messages to any mobile phone, anytime and anywhere.

SYSTEM FEATURES & BENEFITS

- Seamless integration to Outlook 2007 with OMS
- Send/Receive SMS in Outlook Inbox or Outbox
- Easy to set-up (less than 10mins installation time)
- Minimal maintenance and administration
- Plug-and-play into your network LAN
- Telco-Independent
(the GSM modem can support all GSM SIM Cards)
- Unlimited end user license
- Global and personal directory easily accessible via Outlook.
- Supports connection to Microsoft Active Directory (AD)
- Scalable to support up to 32 GSM modems
- 2-way SMS communication
- 24 x 7 x 365 operations

SEAMLESS INTEGRATION TO OUTLOOK 2007

You can send and receive SMS from Outlook 2007 natively (no plug-in required). You can receive tasks and appointments reminders and alerts via SMS. You just need to configure the notifications to be sent to your mobile phones. You can schedule the SMS using Outlook 2007, allowing you to send SMS automatically on a later date and time. Furthermore, Outlook will send SMS to the address book (in Global Address List) directly from Outlook interface.

UNLIMITED END USER LICENSE

With SendQuick Communications, there's no need to purchase individual licenses for each and every new user. Just use your existing Outlook 2007 client software without any additional software plug-in or user license requirements.

INDIVIDUAL USER ACTIVATION AND CONTROL

Outlook users can be activated with user lists from Active Directory (AD) or from a manually created user lists. Each user has their own individual user preference management, reducing the administrative needs of the administrator.

PLUG-AND-PLAY INTO YOUR NETWORK

Simplicity is a major factor when we begin to use a new device. It doesn't get any easier than this. Just get SendQuick Communications set up and you're good to go! Configuration is that simple and hassle free!

SEND SMS ANYTIME

As long as you have access to Outlook, you can send SMS to your recipients. Either you are in or outside of your office, you can use Outlook 2007 to send and receive SMS. SendQuick Communications has a web interface interface to send SMS, to complement Outlook, if required.

2-WAY SMS MESSAGES

Now you can reply the SMS and read the incoming SMS in your Outlook Inbox

24 x 7 x 365 OPERATIONS

Designed for heavy usage everyday, SendQuick Communications is the reliable workhorse that will ensure your day-to-day communication is in tip-top condition
